TWENTY-FIFTH ANNUAL REPORT
OF THE DIRECTORS OF

CANADA IRON FOUNDRIES, LIMITED

YEAR ENDED DECEMBER 31st, 1940

*Submitted to the Shareholders at the Annual General Meeting
of the Company at Montreal, April 30th, 1941*

Herewith your Board of Directors submit Report of the Company's operations for the year ended December 31st, 1940, with Profit and Loss Account and Balance Sheet as certified to by your Auditors.

Profit on operations of \$674,261.06, after deducting selling and administration expenses, compares with a profit of \$399,694.28 for the previous year, being an increase of \$274,566.78 for the period under review.

During the year your Company has furnished a considerable volume of rolling mill equipment and heavy machinery to the War Supply Board as well as to Steel Mills and other heavy industries engaged in war work. This has resulted in a large increase in tonnage of grey iron castings sold and an increased output from Machine Shops, as compared with 1939, the increase in earnings being very largely from these two departments.

Your subsidiary Foundry Plants have furnished a large tonnage of grey iron castings to Machine Tool builders and other industries, also having an increased output from their Machine Shops and a small increase in the tonnage of car wheels and cast iron pipe sold as compared with 1939, the increase in earnings being reflected in dividends received from these subsidiaries of \$302,700.00 as compared with \$115,270.00 for 1939.

Expenditures on Capital Account during the year amounted to \$125,000.00. The greater part of these expenditures was made at the Three Rivers Plant on enlarging the Machine Shop and installation of additional Machine Tools. A small portion was expended at the St. Thomas and Hamilton Plants, increasing grey iron Foundry facilities.

Estimated liability of your Company and subsidiaries for Federal and Provincial Taxes for 1940 amounts to \$644,339.50, this being equivalent to \$11.76 per share on the total outstanding Capital of your Company as compared with \$2.53 per share in 1939.

A dividend of 6% on both the Preference and Common Shares has been declared. 3% on the Preference and 1½% on the Common Shares was paid on November 1st, 1940, the balance on both classes of Shares being payable on April 15th to Shareholders of record March 31st, 1941.

The total earnings of the year of \$988,171.38, when added to the balance of \$1,106,870.82 brought forward, amount to \$2,095,042.20, which after providing for all charges, also dividends on the Preference and Common Shares, leaves a balance to be carried forward to Earned Surplus Account of \$1,294,944.78.

All Plants of your Company have been kept in a good state of repair.

Your Directors desire to record here their appreciation of loyal and faithful service rendered by all employees and members of the Staff during the year under review.

Submitted on behalf of the Board.

March 24th, 1941.

C. L. JOBB,
President.
